*Time passes quickly. There is nothing we can do about it except to see that, as far as possible, it passes fruitfully. If in passing it lays up its store of good deeds done, noble ambitions clung to heroically, and kindness and sympathy scattered with a lavish hand, there will always be given to it a permanence and enduring quality that nothing can take away time. Take time to look—it is the price of success. Take time to think—it is a source of power. Take time to play—it is the secret of perennial youth. Take time to read—it is the source of wisdom. Take time to be friendly—it is the way to happiness. Take time to laugh—it is the music of the soul.*

# They know what it's like

The many young people at Michigan Bell join in congratulating the members of the graduating class. They know what it's like to work hard for a diploma, and get one.

They know, too, what it's like to want a rewarding job with a future, and *find* one. If you think you might like to join them, either now or after college, do stop by to see us. We'll be happy to discuss the wide variety of career opportunities in the exciting field of telephone communications.
